<b>Office Action Summary</b>	<b>Application No.</b> 10/688,292	<b>Applicant(s)</b> ZAMORE, ALAN M.	
	<b>Examiner</b> Monique R. Jackson	<b>Art Unit</b> 1794	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

### Status

- 1) ☒ Responsive to communication(s) filed on 28 August 2009.
- 2a) ☒ This action is **FINAL**.                      2b) ☐ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

### Disposition of Claims

### **DETAILED ACTION**

1. The amendment filed 8/28/09 has been entered. Claims 1-11, 13-19 and 35-48 are pending in the application. The Examiner assumes the Applicant meant to identify Claim 12 as “Canceled” and not “Cancel”, and notes that the crossed-out term “that” in “Previously Presented” Claims 35-36 was deleted in the prior office action and appears to be included in the current amendment in error. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

### ***Claim Rejections - 35 USC § 102***

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

3. Claims 1-11, 13-19 and 35-48 are rejected under 35 U.S.C. 102(e) as being anticipated by Colone (USPN 7,465,483.) Colone teaches a radially expandable, extruded, stretched, sintered, pre-dilated tubular polytetrafluoroethylene (PTFE) material suitable for use in the medical field as liners and covers attached to expandable stents, wherein the tubular material is formed by extruding the PTFE into a tube, longitudinally stretching the tube to impart axial orientation, expanding the tube utilizing a balloon catheter to pre-dilate the tube, and then heating the pre-dilated tube or balloon while longitudinally restraining the tube thereby radially shrinking the axially oriented tubular balloon as in the instant invention; teaching all of the limitations of the instant invention either explicitly or inherently (Entire document, particularly Abstract, Col. 15-

Art Unit: 1794

16, Table XVI.) In terms of the compliance, profile and expandable portion limitations, though Colone does not specifically teach that the tubular PTFE material is compliant or semi-compliant with the compliance curve properties as instantly claimed or has the claimed profile or expandable portion between non-expandable portions, the Examiner takes the position that the radially expandable polymer tube material taught by Colone which is formed by the same material and method as instantly claimed, would inherently possess these same properties as instantly claimed. In terms of instant claim 6, the Examiner notes that the crosslinked polymer limitation of Claim 6 is not positively recited considering Claim 5 recites the crosslinked polymer in the alternative with the non-crosslinked, stretch-oriented polymer with shrink memory which is taught by Colone and hence reads Claims 5-7.

#### ***Response to Arguments***

4. Applicant's arguments with respect to claims 1-11, 13-19 and 35-48 have been considered but are moot in view of the new ground(s) of rejection.

5. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a).

Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event,

Art Unit: 1794

however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
